Career Objectives

Results-driven and detail-oriented Full-Stack Software Engineer with 7+ years of exp. in developing scalable, high-performance web and enterprise applications. Skilled in leading teams and delivering clean, maintainable solutions using C#, .NET Core, modern front-end frameworks and established architectural patterns. Committed to code quality, reliability and delivering precise, client-focused solutions. Seeking to contribute strong analytical thinking, technical expertise and leadership capabilities to a forward-thinking tech company focused on innovation and software excellence.

Professional Experiences

Sr. Software Engineer

Metro Solution Limited

December, 2024 – Present

Shyamoli, Dhaka [Hybrid]

- Working with cross-functional team, managing international clients and stakeholders to deliver distributed and scalable systems and team building with training.
- Oversee core development, requirement gathering, and software architecture design for high-impact projects and ensuring effective communication and ongoing technical growth.
- Integrated both Backend and Frontend applications with team collaboration for faster development.

Software Engineering Manager

SoftifyBD Limited

November, 2018 – April, 2024

Bandar, Narayanganj [On-Site]

- Manage cross-functional teams, oversee microservices development with best practices & technical standards and ensure timely project delivery and client satisfaction.
- Design scalable system architectures, lead database design, and maintain comprehensive project documentation and foster team development through training and mentorship.

Software Engineer

ParonSoft Solutions Limited

August 2017 – October 2018

Banani, Dhaka [On-Site]

- Designed and developed enterprise applications with ASP.NET Core MVC5, SQL and KendoUI.
- Contributed to International payment gateway integration, server maintenance and Bug fixing.

Junior Software Engineer

Ennvisio Digital Pvt. Limited

May 2017 – July 2017

Banasree, Dhaka [On-Site]

- Designed databases and built analytics dashboards, responsive pages using HTML, CSS, JS, JQuery, Laravel and MySQL. Analyzed project requirements, created manuals, and maintained clean code standards.

Educational Qualifications

Bachelor of Science in Computer Science and Software Engineering (B.Sc. in CSSE)

American International University – Bangladesh (AIUB) | 2013 – 2017 | CGPA: 3.21/4.0

Higher Secondary Certificate (H.S.C)

Govt. Azizul Haque College, Bogura | Rajshahi Education Board | Science | 2011 | GPA: 4.6/5.0

Secondary School Certificate (S.S.C)

Nishindara F.U School & College, Bogura | Rajshahi Education Board | Science | 2009 | GPA: 5.0/5.0

Key Projects Accomplished

- **Distribupro**: FMCG distribution management system with Clean REST API (ASP.NET Core 8, MySQL, N-Tier Architecture, Multitenant SaaS) and Frontend with react.
- **ISP Digital**: ISP (Internet Service Provider) automation CRM with Mikrotik RouterOS API and SaaS-oriented multitenancy N-Tier monolithic architecture (ASP.NET MVC5, MSSQL, SignalR).
- **MetroCRMPro**: Omnichannel CRM for multiple industries with onion architecture (ASP.NET Core 8, MySQL, MVC) and cross-platform mobile app integration.
- **Infinity Logs**: ISP user activity logger with onion architecture, efficient data tracking-ASP.NET Core 5, MySQL
- **Biznify**: Scalable ERP for CRM, accounting, inventory, eCommerce and manufacturing with Clean architecture based microservice's REST APIs(ASP.NET Core 5, MySQL, Angular).
- **ServiceNin**: Service sales automation platform like ShebaXYZ with N-Tier REST API (ASP.NET Core 5, MSSQL, React) and a cross-platform mobile app. (with several skill based technician)
- **ManpowerSystem**: HRM and payroll management system – included Task management with Clean REST API (ASP.NET Core 8, PostgreSQL, Angular) and cross-platform mobile app.
- **Edufy**: Advanced EMSS for KG to college and Madrasha with attendance tracking, activity monitoring and dynamic notification (C#, ASP.NET Core 6, MySQL, N-Tier architecture).
- **RAMS-APP (UK)**: Risk assessment and safety management app for FactionHealth on Azure with Blob storage and Stripe (C#, ASP.NET Core 2.0, MSSQL, KendoUI).
- **Ezy Inventory Management System**: Inventory management for SMEs (Laravel, AngularJS, Bootstrap).
- **Travel & Ticket Management System**: Travel booking and ticket management with raw PHP, MySQL, CRUD
- **Other Projects**: [LSMS](#), [CableTV Digital](#), [University Mgmt. Sys. \(BITM\)](#), [Diagnostic Mgmt. Sys. \(BITM\)](#), [DeskperPro \(OCR-docTR\)](#), [Asset Mgmt. Sys.](#), [KidsCreationTV](#), [HMS Digital](#).

Technical Skills & Competencies

- **Back-End Development**: C#, ASP.NET Core, ASP.NET MVC5, Web & REST APIs, CQRS, MediatR, Dapper, ABP Framework, nopCommerce, .NET Open source Boilerplate
- **Front-End Development**: Razor (HTML, CSS, JavaScript, Bootstrap, jQuery), Blazor, React, Angular
- **Architecture & Design Patterns**: Monolithic, Modular Monolithic, Microservices, N-Tier, Layered, Event-Driven, TDD, DDD, SOLID, Repository, UnitofWork, Factory, Strategy, Multitenancy, KISS, DRY, Clean Architecture
- **Databases**: MS SQL Server, MySQL, PostgreSQL, SQLite, MongoDB
- **DevOps & Infrastructure**: Docker, Redis, RabbitMQ, Distributed Caching, AWS, Azure, Oracle Cloud (OCI), Windows Server (2016–2022), Ubuntu Server, Cloud Managed VPS
- **Firewall/Networking**: Mikrotik (API + Radius), Palo Alto, pfSense, VPN
- **Monitoring, CI/CD & Deployment**: Zabbix, Grafana, GitHub Actions, Logger, Version Release, Deployment
- **Testing & Debugging**: xUnit, Sentry, TestContainers, OpenTelemetry, Postman (Unit, Load & Visual Testing)
- **Real-Time Communication**: SignalR, WebRTC, Open Talk, Firebase Cloud Messaging (FCM)
- **Project & Team Management**: Agile & Waterfall methodologies, Jira, Trello, Slack, Technical & API Documentation, Clean Code Practices, Mentoring
- **Other Development Area(s)**: PHP, Laravel, Cross-Platform, Flutter (MVC & MVVM), MAUI, Dart, FlutterFlow

Research & Publications

"[Techniques for Converting Big Data from SQL to NoSQL Databases](#)" Published in *Academia.edu*, July 2016.

Professional Certifications

- "Big Data(Data Analyst)" conducted by the **AIUB** under the **LICT project of ICT Division** in Dhaka, 2017.
- "Web Application Development- Dot Net" conducted by the **BASIS-BITM** under **SEIP Project**, Batch#23, 2016
